

French Horn & Tuba v3

Four Virtual solo French Horns
French Horn Ensemble, and Tuba

Revolutionary virtual instruments, employing an entirely new technology which uses samples (recorded with state-of-the-art technology) as a base material, and allows continuous interpolation among different vectors like time, space, dynamics, timbre, pitch and formants in real time.

- The most expressive and realistic virtual French Horns and Tuba ever made
- Sample Modeling™ Technology
- No pre-recorded, fixed phrases and articulations
- Realistic legato/portamento, vibrato, ornamentations & trills, shakes, rips, pitchbends, growl and flutter tongue entirely under player's control in realtime
- Real-time programmable Microtuning
- No sampler needed
- Works as a stand-alone application or as a plugin
- Supported interfaces: Stand-alone, VST, ASIO, Core Audio, WASAPI, AAX Native (Pro Tools 10 or higher)

Includes Native Instruments KONTAKT PLAYER 5.

For further details please refer to the pdf manuals on the CD or visit www.samplemodeling.com.
